Hugo Leroux

Computer Engineer specialized in cybersecurity

Highly motivated and passionate about networks and computer science, I am a dedicated engineer with 2 years of experience in cybersecurity. I have specific expertise in Windows system penetration testing, GPO (Group Policy Objects), and operating environment security. I am responsible for maintaining the master version of our modified OS and possess skills in Python, networking, and script creation. Additionally, I have excellent communication skills.

Education and Training

IT Engineer

Since September 2021 [ESIEA Graduate School of Engineering](#). Ivry-sur-Seine specialized in cybersecurity and network

HND in Network and IT

From September 2020 to June 2021 [La châtaigneraie](#) Le Mesnil-Esnard

BTEC

From September 2017 to July 2019 [La Châtaigneraie](#) Le Mesnil-Esnard
Technological baccalaureate (equivalent to A-levels) in Science Technologies and Sustainability

Work experience

Apprenticeship Cybersecurity Engineer

Since September 2021 [SIDEL BLOWING & SERVICES](#) Octeville-sur-Mer
My role at SIDEL BLOWING & SERVICES focuses on technology watch, securing our custom operating system, virtualization, hardware adaptation, scripting and vulnerability analysis. I work closely with the team to ensure that our infrastructure is secure, efficient and state-of-the-art.

Internship in IT

From September 2020 to October 2020
[Bissane Informatique](#) Le Havre, Haute-Normandie
This internship was a rewarding experience that enabled me to put my IT skills into practice and develop my knowledge of database management. I was able to make a significant contribution to updating and migrating the Bissane Informatique database, while gaining valuable experience in a professional environment.
